## ***Explanation of the new Multi-Access Pooling Plans***

Alltel Business Solution's now has something that no other carrier offers...the ability to optimize your accounts' phone usage through a new and distinct set of rate plans.

Our new **Multi-Access Pooling Plans\*\*** (MAPP) allow you to pool your cell minutes across many different price points, and with the use of Alltel's **Anytime Rate Plan Changes**, gives you the ability to choose those plans that will best fit your account's needs.

No longer are you required to purchase the same rate plan for everyone in order for you to pool the minutes. Now, you have a choice, more control, and the ability to get the most for your budget dollars.

In addition to the new MAP plans, Alltel is the only carrier that offers **My Circle**. The freedom to call the people you talk to most for free at anytime. Just imagine being able to choose the top ten numbers that your account calls, and not have them count against your plan's pooled anytime minutes. With My Circle, you choose who you call for free – any ten numbers on any network, anywhere in America, anytime of the day.

You decide. You control who's in your business's Circle, and can change your Circle numbers any time.

***\*\*Please note that the pooling for the MAP plans and the Smart Choice Packs are based on the coverage area, i.e. Greater Freedom MAP pools with Greater Freedom Smart Choice Packs.***
